Learn how 32 points on your head receive gentle and strategic touch during an Access Bars session. Discover how each point relates to your decisions, fears, balance, and life in general. **INTRODUÇÃO**: What are Access Bars? Before reading, remember: gaining access to your own consciousness can unlock imprisoned knowledge. By the end, you'll understand why. If you've made it this far, you likely already know what Access Bars are and how they impact people's lives. To simplify understanding the points, let me recap this powerful transformation tool with a practical example: Imagine your head, thought process, is like a computer hard drive accumulating information throughout life. These stored info bits create concepts, blockages, and limitations that hinder progress, whether internal, professional, or in relationships. You create limiting viewpoints like "This is ugly" or "This is wrong." The issue isn't what's right or wrong, but creating a different reality. How? Through Access Bars, releasing points on your head that have stored information creating these limitations. During a session, we run our bars and clear out files from our mental hard drive, freeing space for new possibilities in life. This technique initiates the release of negative beliefs and patterns, increasing our options for choices. **WHAT HAPPENS DURING AN ACCESS BARS SESSION?**: During an Access Bars session, you'll enter a deep state of relaxation while gentle touches are applied to strategic points on your head. Unconsciously, we carry conditioning, judgments, and polarities that limit our lives. As we start to release this stored energy in our brain, we stimulate the exact points that need liberation and change. This is why some people have vivid memories from their past during a session, while others fall asleep but still unconsciously tap into their subconscious mind. Believe it or not, you can change how you think and see the world in a more balanced and harmonious way by letting go of unnecessary mental baggage. 3 ACCESS COUNSCIOUSNESS: Empowering people to know what they already know. This is when we want things to manifest in the way we envision them, without being controlled by our own fears and doubts. Creativity comes from the brain, and when this point is stimulated and receives the necessary energy, it allows us to bring our desires into reality. Physical Realignment: After releasing thoughts, emotions, and conditioning, our bodies can realign with a newfound sense of well-being. This includes issues related to money, time, and space, such as procrastination, which can hinder progress and lead to anxiety and fear. Form and Structure: Sometimes, our limitations prevent us from seeing new possibilities or making the right choices. We're often stuck in old habits, like using a certain learning method or always doing things a certain way. We may have unfulfilled dreams and hopes that we've left behind, but it's never too late to resuscitate them. Conscious Bondage: What's your reflection on your life? Are you grateful for the good times and at peace with yourself? Practicing gratitude can be a powerful conduit for well-being and inner peace. Barras de acessibilidade em vários setores da vida. Pois é a base que viabiliza o acesso à consciência, facilitando a comunicação e o desbloqueio pessoal. Banda de implantes onde estão armazenados os pontos de energia que precisam ser liberados durante as sessões. A idade como um processo de envelhecimento, e como podemos nutrir nosso corpo para não envelhecer? A reativação sexual é fundamental para manter a energia e a conexão com o parceiro. O tempo e o espaço são fundamentais para criar uma nova estrutura e vida feliz. A tristeza nos impede de ir além, mas a alegria pode ser estimulada buscando nossas realizações e eliminando os bloqueios. O nosso cérebro concentra todos os comandos corporais e as energias, armazenando sensações, sentimentos e condicionamentos. Ao estimular as áreas que detêm essas sensões com a transferência de energia, podemos liberar os aprisionamentos e das polaridades que limitam nossa vida. O acesso à sua própria consciência pode libertar conhecimentos aprisionados.
